	<ul style="list-style-type: none">• Concern raised that other events occurring worldwide mean that this survey is not at the forefront of people's minds• No partnership data for comparison as Copeland wards did not take part in March survey• Margin of error is +/-6% - feelings were that figures didn't quite compare with last survey - more planning needed on how surveys are carried out i.e. does it have to be telephone survey?• GG to arrange for Yonder to come and talk to group regarding the survey• Preference for next survey to take part would be after door drop – GG discuss with Yonder how they feel the survey is representative• Document is classed as being representative of Allerdale area – GG to ask for conclusion of demographics	GG
